Hi Xiao,

Congratulations on your excellent performance in CS3230! Here are the details of your result:

Final mark: 95%
Rank: 6th out of 381 students
Grade: A+

Please feel free to use this email as confirmation of your result.

Best,
Warut

Subject: [CS3230] Enquired on Top Student

Dear Prof Warut,

I was your student in the past Semester 2 for CS3230 Design and Analysis of Algorithms. I want to ask whether I am eligible to be placed among the top students for this module because the cert can help me apply for other research opportunities like Turing Program.

I think overall I get around 95% to 96% of the total marks for this module.

Thank you very much!

By the way I enjoyed your teaching very much and am planning to take CS4261 under your in future! Hope that you are still teaching it next year!

Regards,

TIAN Xiao (Mr.)
