EDUCATION

Ph.D. in Computer Science **Jan 2025 – Dec 2028 (Expected)**
National University of Singapore (NUS) *Singapore*

- Supervised by **Prof. Bryan Kian Hsiang Low** and **Dr. Nancy F. Chen**
- GPA: 5.00/5.00
- Funded by **A*STAR Graduate Scholarship (Computing) Scholarship**

Bachelor of Science & Bachelor of Computing **Aug 2020 – Dec 2024**
National University of Singapore (NUS) *Singapore*

- Double honours degree in **Applied Mathematics** and **Computer Science**
- Specialisation in Artificial Intelligence, Algorithms, Theory and Computation
- **Turing Programme** candidate
- GPA: 4.95/5.00 (Applied Mathematics); 4.91/5.00 (Computer Science)
- Funded by **NUS Science & Technology Undergraduate Merit Scholarship**

Awards and Honors

- NUS School of Computing **Research Achievement Award**
- NUS **Outstanding Undergraduate Researcher** (OUR) prize (**Best Undergraduate Researcher (Individual)**)
- **Distinction** in *Artificial Intelligence* and *Algorithms & Theory* focus areas
- **Top student** for *Machine Learning*, *Algorithms at Scale*, *Design and Analysis of Algorithms*, *Discrete Structures*, *Programming Methodology* and *Research Methodology* courses
- **Dean's List** for 6 times
- NUS School of Computing **Take on the World** (SToW) award

RESEARCH INTERESTS AND PUBLICATIONS

Research Interests

- Data-centric machine learning (e.g., data valuation, data selection, machine unlearning)
- Agentic system (e.g., agentic memory, multi-agent system, collaborative learning, incentive mechanism)
- Privacy-preserving machine learning (e.g., differential privacy)

RESEARCH AND PROFESSIONAL EXPERIENCES

Technical Reviewer **Fed 2026 – Present**

- Served as technial reviewer for artificial intelligence/machine learning conferences such as ICML-26.
- Attained **Silver Reviewer** in ICML-26.

Student Researcher **May 2023 – Sep 2023; May 2024 – Aug 2024**

National University of Singapore (NUS) *Singapore*

- Conducted research on **collaborative machine learning** and **privacy-preserving machine learning** under the supervision of Prof. Bryan Kian Hsiang Low.
- Presented Publication [1] in the 38th AAAI Conference on Artificial Intelligence (**AAAI-24**).

Teaching Assistant **Aug 2021 – Present**

National University of Singapore (NUS) *Singapore*

- Conducted weekly tutorial and laboratory sessions; developed course materials (e.g., slides, assignments, examinations); mentored group projects; reviewed and marked codes, assignments and examinations.
- Attained the **Honour List of Student Tutors** for 2 times (AY2021/22 and AY2022/23).
- Taught the following courses (with final teaching ratings obtained from students):

Course	Obtained Rating	Faculty Average Rating
Data Structures and Algorithms	**4.6**/5.0	4.2/5.0
Machine Learning	**4.5**/5.0	4.2/5.0
Programming Methodology II	**4.8**/5.0	4.2/5.0

Software Developer **May 2022 – Aug 2022**

Singapore Telecommunication Limited (Singtel) *Singapore*

- Acquired core skills in cross-platform mobile application development (including setting up dependencies and environment, building API connections and layers, implementing key logic, testing) with 20k+ lines of code.
- Developed ***Wi-Fi Coverage Tool*** and ***Broadband Protect Service*** features in **My Singtel App** from scratch as the core developer. Both features have been released in Version 9.3 of My Singtel App in both iOS and Android.
- Optimised performances and fixed bugs for *SIM Registration* and *Customer Inbox* features in My Singtel App.

Student Researcher **Mar 2018 – Feb 2019**

*Agency for Science, Technology and Research (A*STAR)* *Singapore*

- Conducted research on applying **machine learning** to **lock-in thermography** to detect the 3-dimensional geometry of partially visible objects and evaluated its practicability of being applied to real-life scenarios.
